

ARKANSAS FUNERAL
DIRECTORS ASSOCIATION

COVID-19 Acknowledgement

The Governor of Arkansas, in addition to other federal agencies and the CDC, has issued guidelines for indoor public gatherings. These guidelines apply to funerals, visitations, and memorial services.

I acknowledge and understand the state's directive in response to COVID-19, which states that indoor public gatherings should not exceed fifty (50) persons or 33% of the venue's capacity, whichever is higher. I understand that this executive order is the equivalent of a state law. The Arkansas Funeral Directors Association has advised funeral homes to keep visitations, funerals, and memorial services to the gatherings of close friends and family members, to adhere to this directive. I understand the risk of transmission of COVID-19 that is present in such gatherings and agree to proceed with the event as planned with the funeral director. I take this decision at my own choice and recognize that the funeral home has no liability for any transmission of the virus arising from this public gathering. I also acknowledge that I have been advised of these risks and accept the responsibility of assisting the funeral home to keep the gathering as small as possible as a matter of public health.
