

ARKANSAS FUNERAL
DIRECTORS ASSOCIATION

Advice from the federal government regarding public gatherings is to avoid all public gatherings of more than ten (10) persons wherever possible to limit the spread of COVID-19.

In light of this guidance, we have decided to limit funeral services and visitations to the immediate family only.

Our only wish is to protect the families and communities that we serve as best we can, by honoring families' wishes for visitations and memorial services to continue to happen, and also honoring our duty to the general public to ensure that no unnecessary risks are taken that would increase the risk of spread of this virus.

We would be very happy to talk you through the reasons behind this as they apply to your particular circumstances. Our only hope is that we give our community the very best service that we can.
